Education, Business, Entertainment: A Single 11" Android Tablet for All Moments

The Perfect Partner for Everyday Life

PT11 is a tablet suitable for every moment of everyday life, including learning, business tasks, and entertainment. It offers a clear image quality with its 11-inch display, supports hardware and software for playing premium content, and allows connection anywhere at any time with LTE support. It is equipped with all the major features users expect from a tablet, providing the best experience wherever you are.

Optimized for Both Learning and Entertainment

PT11 is optimized for online learning courses and videos for entertainment. It supports Widevine DRM L1 for premium content services like Netflix and provides sharp video with its 2K resolution. The quad speakers deliver superior sound quality for immersive experience, and the 8,000mAh large battery allows for long hours of uninterrupted watching. Moreover, users can set the level of lowest screen brightness and connect PT11 to other devices via Bluetooth, offering an optimal viewing experience in any environment.

Seamless User Experience Through Powerful Performance

PT11 provides a smooth user experience with its processing power. The 8 GB RAM and 128 GB UFS storage allow for applications requiring high performance, including games. The processor combining dual 2.2 GHz high-performance cores with six 2.0 GHz cores ensures fast and smooth experience. The efficiency of the Android 13 operating system and its intuitive interface also minimize any inconvenience.

Additional Features Suitable for the New Business Environment

Considering the evolving business environment that are increasingly independent of time and place, PT11 is equipped with high-precision location features such as GNSS, accelerometer, gyro sensor, and digital compass, which are useful when traveling in vehicles, among others. It supports stylus for more accurate handling of a task, enables video conferencing with the front camera, and captures real-time field situations with a rear Auto Focus 13MP camera, enhancing productivity with PT11 alone.
